CASE STUDY

Strengthening the Foundation: Alamo Group Reinforces Its On-Premise JD Edwards Infrastructure

COMPANY SNAPSHOT

A ALAMO GROUP

Company: Alamo Group

Industry: Industrial Equipment Manufacturing

Location: Seguin, TEXAS

About the Company:
Alamo Group (NYSE: ALG) is a global leader in the design, manufacturing, and distribution of equipment for **infrastructure maintenance, vegetation management, and industrial applications.** With more than **40 brands and 28 manufacturing facilities worldwide,** Alamo delivers machinery that supports agriculture, forestry, road maintenance, and a wide range of industrial uses.

JD Edwards Engagement

Alamo Group has partnered with GSI for over a decade, beginning in 2012. The company runs JD Edwards EnterpriseOne (Release 9.1) as its core ERP and relies on GSI's deep JDE expertise for CNC and database administration.

Key initiatives and accomplishments include:

- **32+ successful JD Edwards projects** completed since 2012

- **Managed Services (AppCare)** providing proactive JDE monitoring and support

- **Trusted Strategic Advisor** – supporting Alamo Group in defining forward-looking JDE, Oracle, and technology investments to drive long-term efficiency and innovation

- **Oracle GoldenGate Integration** for real-time data replication

- **AI Proof of Concept** leveraging JD Edwards data to explore intelligent automation and analytics

- **Tools & Code Current Upgrade (in progress)** to modernize JDE custom code and enhance performance

Results & Partnership

With GSI's continued support, **Alamo Group's JD Edwards environment remains stable, secure, and up to date,** positioning the organization for scalability and innovation.

Outcomes:

- Increased system reliability and uptime through managed CNC and database services
- Modernized JDE environment with current tools and infrastructure
- Successful cloud migration improving performance and accessibility
- Trusted partnership built on responsiveness, transparency and technical depth

> *"GSI continues to be a valued and trusted source of information and help regarding JDE database and CNC topics. Communication is great and requests are processed quickly"*
